# WHEATON CRIMPenstein™ Electric Crimper/Decapper

**Advanced Ergonomic Design  
Engineered to Save Money  
and Make Your Crimping and  
Decapping Jobs Go Faster  
...and Easier**

Lightweight and easy to operate – Enables handheld semi-automatic operation for extended periods with less effort

Quick-change jaw-sets available in 8, 11, 13, and 20 mm sizes

– Provides cost savings by eliminating the need to purchase separate crimpers and decappers

Electric powered for quick setup and high volume operation

– Eliminates the need for regulated compressed air or batteries which discharge over time

Adjustable Jaw Intensity with Memory – Allows user to regulate jaw action as required to achieve the perfect crimp

Electrify your crimping and decapping operations with the new innovative patent pending Wheaton Crimpenstein. Engineered to improve productivity and efficiency in a variety of laboratories performing chromatography, QC testing, lyophilization and vaccine development, or any other applications where vials are capped with aluminum seals. This AC powered crimper/decapper provides fast and consistent results with a simple push of a button. Jaw action intensity can be adjusted as needed. The ability to change jaw-sets offers an unmatched level of flexibility and economy for applications where various sizes of aluminum seals are required. A sturdy stand is available which will hold the Crimpenstein in a fixed vertical position for operations where vials need to be handled one at a time.

- Interchangeable jaw-sets save time and money for multiple application laboratories

- Ideal for high volume handheld operation, the lightweight Crimpenstein is ergonomically designed with your comfort and safety in mind

- The crimper stand holds the Crimpenstein in a fixed vertical position enabling individual capping to be performed quickly and easily

## Ordering Information

### Crimpenstein™ Unit and Power Cord\*

Description	Size (mm)	Cat. No.	Qty/Cs
<b>With Crimper and Decapper Jaw-Set</b>			
Crimper and Decapper	8	W225600-A	1
